

## BULGARIAN ENERGY HOLDING EAD

This reference is issued in favor of "NIKRAMA" Ltd, which in the course of our work is proven as a trustworthy and reliable partner.

"Bulgarian Energy Holding" EAD chose to implement the integrated software platform Axence nVision® to cover the following own IT needs for: monitoring and visualization of the network environment, network devices and users of IT services, control and notifications, management of software and hardware assets, performing IT audits, use of Help Desk and generating of IT reports.

We hope that this reference will be used by all interested parties in the selection of Axence nVision®, distributed in Bulgaria by "Nikrama" Ltd.
